

Barack John

Software Engineer | Data Scientist | Cyber Security Engineer

ID Number: 39846768 | Date of Birth :25Th February, 2003. | Languages: English & Kiswahili

 johnbarack10@email.com |  +254 703750808 |  johnbarack.netlify.app | Nairobi, Kenya

Professional Summary

Recent Software Engineering graduate with demonstrated proficiency in Java, Python, and database technologies. Passionate about data science, and cybersecurity. Currently expanding expertise through Cisco's Netacad cybersecurity program and self-directed learning in system security.

Technical Skills

Category	Technologies
Programming Languages	Java, Python,Shell
Security Tools	Nmap,Wireshark, Burpsuite, Metasloit Framework.
Databases	MySQL, MongoDB, Database Management & Optimization
Data Science & ML	Python-based data analysis, Machine Learning fundamentals.
Data Analysis	Power Bi, Excel. Data wrapper, Tableau.

Soft Skills

Leadership, documentation, client communication, project management

Experience

Data Analyst – SafetyPlus Consulting Ltd
Ongata Rongai | May 2024 – August 2024

- Multiple client response data analytics
- Implemented using Excel and Data Wrapper
- Clear graphical visualization and reports

Clerk – IEBC
Homabay | July 2022

- Served Voters at St Daglous Weta Primary school polling station.

Acolades

Coporal – St John Ambulance Kenya | Kisii University Division | April 2023 – April 2024

Class Prefect – Lasco Academy | January 2010 – October 2016

Education

BSc in Software Engineering – Kisii University | 2021 – 2025

K.C.S.E – Chewoyet High School | 2017 – 2020

K.C.P.E – Lasco Academy | 2007 - 2016

Projects

Ghost Asistant

AI based human interaction page to asist in giving solutions through voice notes and get both text and voice responses.

AWS cloud Security Misconfiguration auditor

Wrote a python/Boto3 script to audit AWS accounts for 10+ misconfigurations ie openS3 buckets.

Human Safety & Support Portal

Multi-organization reporting platform with secure login and data encryption in Python.

Supply Chain Tracker (Blockchain)

Auditable supply chain solution using smart contracts.

Automated Home Lab SIEM & Log Analysis

Collect and analyze SSH,web and system logs

Certifications

- KAPS AI Hackathon Certificate
 - Internet Computing Blockchain Hackathon Certificate(ICP)
 - Introduction to Cyber Security Cetificate.
 - St John Ambulance First Aid Certificate.
-

Interests, Activities & Hobbies

- Making Friends
 - Playing Soccer & Badminton
 - Reading.
 - Serving the community
-
